

Melbourne
PRIVATE HOSPITAL

Melbourne Private Hospital is co-located with the Royal Melbourne in the heart of busy metropolitan Melbourne. We are a large acute facility with 124 beds with an exciting and challenging case mix.

We are able to provide a variety of clinical rotations in a program individually tailored to the needs of each graduate.

Our Specialties at Melbourne Private Hospital include:

- General Surgical/General medicine
- Hepatobiliary
- Neuroscience/Vascular
- A choice of rotations are also available to specialty areas including Theatre, Day Procedure/Chemotherapy and Intensive care.
- Urology
- Orthopaedics
- Cardiothoracic/Cardiology

The aim of the graduate nurse program at Melbourne Private Hospital is to provide a stepping stone for the rest of your nursing career. We maximise your exposure by providing up to **four clinical rotations** as well as external rotations, that are individually tailored to your preferences. We offer an **Operating Theatre Graduate Program** for those who wish to specialise.

We want to develop nurses who want to stay in nursing: over the last 5 years 70% of graduate nurses have remained in our hospital and over a third of these have completed university postgraduate studies in specialty areas. We offer **scholarships to all our graduates** to help them continue to focus on their professional development.

Our hospitals offer a supportive, friendly learning environment. In addition to a dedicated Graduate Nurse Program Coordinator, we have a Clinical Development Unit that is committed to your training and education, including specific GNP support nurses that provide continuous clinical coaching throughout the year.

We provide a comprehensive orientation, a structured preceptorship/mentor program, paid study days and regular tutorials, this will ensure the best start possible for you as a newly registered nurse!

We offer:

External rotations for Midwifery, and Emergency Department

Enquires and applications
